Jon:

I never heard from Phil or Chris. Also, for some reason we analyzed for Dioxins and Furans from Tank Trailers 407 and 408 and I am not sure how to evaluate this data. Do we have screening numbers. See the lab data.

Thanks

Gary,

I will be out of town until Wednesday, August 27.

I am forwarding your email to Chris and Philip.

Thanks, Jon

Jon

Could you take another look at the data? Please give me your tox opinion.

The air and soil is what needs to be reviewed. The water is a source sample from the ditch prior to removing and flushing.

Thanks

Gary

Gary,

Attached is the table that you requested. We have also updated the air and surface water screening values. Please let me know if you have any questions or need anything else.

Thanks.

Derrick:

I would like 1 table that shows all data (including non-detects) and then 1 table showing only detects for each media sampled (long table and short table).

Send him what did yesterday and let him know we are finalizing the other screening levels. He has to meet with an activist at 11
